

NAME: Opalla

GENDER: Female

DATE OF BIRTH: May 27, 2019

Opalla is a friendly and outgoing girl who was raised from a kitten by a young woman in West Virginia. Unfortunately, the woman began dating a man that does not like cats. (It happens!)

Opalla was the only animal in the home and has not spent a lot of time around children but seems tolerant of most people if they are respectful. She likes getting pets and calm attention. She should also be OK with dogs if integrated slowly and the dog is calm and friendly. Opalla likes sitting in windows and sleeping in cat beds on the floor. She has never been observed higher up in a cat tree, but that could be because she doesn't want to compete with other unfamiliar cats for the space. She would probably do OK with another friendly older kitty to spend her time with.

Opalla likes both the wet and dry food served at the café and prefers drinking out of fountains. She is microchipped and vaccinated for rabies and distemper and has been spayed. She has tested negative for FeLV and FIV.
