

NAME: Sunny

GENDER: Male

DATE OF BIRTH: June 23, 2023

Sunny and his littermates Marble and Rusty came to 4Paws from West Virginia with their mother Mandy. Mandy was recently adopted from Meows Corner, but the kittens needed to grow a little bit before coming to the café. Sunny is a friendly playful boy that is still learning to enjoy

being held. He earned the nickname “Underfoot” in foster, where he would closely shadow his foster to get attention, then roll onto his back for pets. When he is picked up, he becomes a squirmy ball trying to get down, but does not scratch or lash out in any way. He did not react to the foster’s mastiff dog and likes other cats. Sunny would be a good addition to a home where there are children and will need a young cat in his new home.

Sunny likes napping on top of high perches and spending time playing with his siblings and other cats in the foster room. At mealtime he moves from bowl to bowl, sampling all the freshly served food even though it is the same food he already has tasted.

Sunny has had his vaccinations, is microchipped, and has been neutered. He has tested negative for FeLV and FIV. Sunny likes both wet and dry food and is eating Fancy Feast classic pate and Purina One kibble.
