

NAME: *Daisy and Bianca*

GENDER: *Females*

DATE OF BIRTH: *September 30, 2022*

Daisy and Bianca were found alone in a young lady's front yard in Herndon right before the weather turned very cold last fall. She knew they were young enough to still be nursing but the mother was not found. So, the young lady took them into her townhouse and watched videos online to learn how to care for them. She did a great job bottle feeding them, and when they were weaned, she called 4Paws to find them a good home.

Daisy and Bianca are sweet girls that like being handled due to the hand-raising by their initial caretaker. They like people and are affectionate but still have time to wrestle, play, and nap. Bianca is the more gentle, smaller kitten and Daisy is more physically active and aggressively playful girl. They are both almost all white, except Bianca has a barely-there spot of black on her head, and Daisy has a bigger, but still small, black skullcap, with a tiny peach spot next to it. The cool thing about these two is that Daisy's right eye is green, and her left eye is blue, and Bianca's right eye is blue, and her left eye is green! They would make wonderful companions to children of all ages and would also do well with dogs, although proper introduction protocols should be followed with any resident animals. They like to play with all types of toys and each other, although Daisy can be a little rougher than Bianca would like.

Daisy and Bianca tested negative for FeLV and FIV. They have had their rabies and distemper vaccines and have been dewormed and chipped. They have also gotten topical flea treatment. Adopters will be contractually required to have them both spayed before 03/30/23. The adoption fee for unaltered kittens is \$145 each, which includes a \$50 alteration deposit for each kitten that will be refunded to adopters when they submit proof of alteration to 4Paws before 3/30/23. They like both wet and dry food and drinking water from both a fountain and a bowl. They are eating Fancy Feast classic pate and Purina True Instinct grain-free kibble.
