

NAME: Selena

GENDER: Female

DATE OF BIRTH: April 18, 2018

Selena was found in a pasture on a farm in West Virginia. She was friendly so the farm hand called a rescue and some volunteers picked her up and took her to the vet. No chip, and she was in pretty good shape so she must not have been out there long.

Selena is a quiet cat who likes to watch everything around her. She doesn't meow much and welcomes gentle pets and soft voices. Selena doesn't like the café when it

gets too busy so she retreats to the back room or holes up in one of the many cat condos on the floor to nap. Selena would be good around older respectful children and calm dogs. She will do best in a quiet relaxed house where the energy is low and slow-paced. She would probably do OK with a calm, adult dog that doesn't bark much if proper introduction protocols were followed.

Selena has had her vaccinations, is microchipped, and has been spayed. She has tested negative for FeLV and FIV.

Selena likes both wet and dry food. She is eating Fancy Feast class pate and grilled varieties and Purina One kibble.
