

NAME: Peaches(f), Argyle(m), and Eleven(f)

DATE OF BIRTH: Peaches 2/7/21; Argyle/Eleven 7/19/23

Peaches and her kittens Eleven and Argyle were being fostered in West Virginia and were transferred to 4Paws Rescue Team in January 2024. Not much is known about how they were rescued. Peaches is a friendly kitty and the kittens needed socializing, so Peaches was probably an outdoor cat that had her babies outside, and they were not exposed to humans regularly. In their foster home however, they became used to humans and began appreciating the attention and kindness

of gentle pets. Now it is time for them to find their forever homes!

Peaches is a happy, loving mother who seems closer to Argyle than Eleven, but would work with either (or both, if you would like a trio!) in an adoptive home. We don't know how any of them would do with dogs. The kittens are more cautious around new people than Peaches is, but they take their cues from her.

Hopefully the café setting will help them associate humans with good things like treats and playtime. Argyle and Eleven will each need an older, more confident cat in their new homes to help them overcome their shyness. They would probably do better with children 12+ and in a quieter home.

They have all been altered, vaccinated against rabies and distemper, tested negative for FIV and FeLV, and microchipped. They are eating Fancy Feast classic pate and Purina One kibble.
