

NAME: Harold

GENDER: Male

DATE OF BIRTH: November 30, 2023

Harold was found in Beaufort, North Carolina and transported up to Virginia where there is more demand for adoptable cats. He was trapped with his sister Clarice, but they are not bonded and can be adopted separately.

Harold is a white and grey cat that is kind of a little clown. He likes people and when approached bobs his head around as if to say "I don't know how to say hi but I am excited to see you!" before engaging in pets.

Harold would do well in an active home with children or in an adult-only situation. He would need another active playful companion cat in his new home. 4Paws assesses that Harold would also do well with dogs if proper integration protocols are followed.

Harold has had vaccinations for rabies and distemper, is microchipped, and has been neutered. He has tested negative for FeLV and FIV. He is eating Fancy Feast classic pate and Purina One kibble.
