

NAME: Maribel

GENDER: Female

DATE OF BIRTH: September 22, 2023

Maribel was rescued from a hoarding situation with several other cats. She was assessed to be young and friendly enough that with enough interaction with humans, she could become someone's pet. The café environment is a way to immerse Maribel into an environment where she will get the constant interactions with people she needs. She will probably always be unsure of new people and skittish so she will require

someone who loves her despite her defensiveness and caution around humans.

Maribel would probably do best in a quiet home with patient adopters that can work on positive reinforcement behavior strategies with her. Having a confident, friendly and disarming cat friend will encourage Maribel to relax in her new home. Maribel would not do well with children younger than 10 or in a busy house.

Maribel loves Temptations treats, which can be used strategically to get her to accept pets and being handled.

Maribel has had vaccinations for rabies and distemper, is microchipped, and has been spayed. She has tested negative for FeLV and FIV. She is eating Fancy Feast classic pate and Purina One kibble.
