

NAME: Rudolph and S'mores – bonded brother pair

GENDER: Males

DATE OF BIRTH: June 23, 2023

Rudolph and S'mores are brothers from Alexandria. They were turned in to 4Paws by a family that took them as kittens even though their apartment doesn't allow animals. Now that they are bigger the family became concerned about being discovered having the cats so relinquished them to 4Paws. (Rudolph is wearing a cone in his picture because he was bothering his neuter incisions)

Rudolph and S'Mores are large for their age. Rudolph is a grey and white tuxedo and S'Mores is a copper brown tabby with white. They are bonded so will need to be adopted together. They both have nice temperaments but don't like to stay confined to one area very long. They are accepting of younger kittens and other cats in foster. Rudolph and S'Mores are playful and like chasing catnip mice, balls, and wand toys.

They react well to other cats so could go to a multi-cat home. They should also do well with dogs if appropriate, slow introductions are utilized. They were raised among a large family with kids around most of the time so should do well with kids of all ages. Their size may make it difficult for the younger children to carry them, however.

Both have been neutered, vaccinated against rabies and distemper, tested negative for FIV and FeLV, and microchipped. They are eating Fancy Feast classic pate and Purina One Indoor Advantage dry food.
