

NAME: Aslan & Aravis

GENDER: Male & female

DATE OF BIRTH: July 25, 2024

FUR LENGTH: Medium & short

COLOR: Orange tabby & Tortie

**Purrsonality:** Aslan and Aravis are playful, goofy kittens that love romping around on cat condos and playing with other cats and children. They like to sleep with people and give kisses.

**Children?** Aslan and Aravis have been raised with older children (8+) but should do well with respectful kids of any age.

**Other cats?** Aravis and Aslan are bonded and must be adopted together, but like other cats and would do well in a home with other playful, tolerant cats <5 years old.

**Dogs?** Aravis and Aslan have not been around dogs but given their young age should do well if proper introductions are followed and the dog doesn't bark or chase them.

**Background:** A partner rescue was called to Romney, WV because someone found two sick kittens outside. They were covered in fleas and starving. The person that found them thought their mother had been taken by coyotes because there are a lot of them in the area. The kittens were rushed to the vet. Thankfully they didn't need to stay at the hospital, but they needed intense TLC in foster. They were estimated to be about 6 weeks old at the time. They were bottle-fed around the clock and nursed back to health, while her children played with them and helped socialize them. They were transferred to 4Paws to become Meows Corner cats.

**Medical or special care notes:** The kittens have had vaccinations for rabies and distemper, are microchipped, and have been altered. They tested negative for FeLV and FIV. They are eating Fancy Feast classic pate (no fish flavors) and Purina One Indoor Advantage turkey.
