

NAME: Reggie

GENDER: Male

DATE OF BIRTH: July 12, 2023

Reggie and his siblings Minnow and Prissy were brought to a rescue in West Virginia when they were found outside near a walking trail. They were friendly but young, so the person that found them scooped them up and took them to Pat's Little Angels for care. All three seemed to be in good shape health-wise, so PLA got them vaccinated and altered before

contacting 4Paws.

Reggie and his brother Minnow are not bonded but would make a good pair if adopted together. If adopted separately, each would need another young cat (<18 months) in the house to keep him from developing mischievous habits from boredom. Reggie would be a great addition to a family with kids of any age. He is very easy-going, easily handled and playful. Because of his age, Reggie is adaptable to a wide range of lifestyles and home environments. If proper integration protocols are followed Reggie should be able to live in a multi-pet household.

Reggie has had his vaccinations, is microchipped, and has been neutered. He has tested negative for FeLV and FIV. He likes both wet and dry food and eats Fancy Feast classic pate and Purina One kibble at Meows Corner.
