

NAME: Bowie

GENDER: Male

DATE OF BIRTH: April 24, 2024

FUR LENGTH: Short

COLOR: Orange & white tabby

Purrsonality: This sweet guy is a little shy when he first meets someone new, but warms up quickly! Once he knows he's safe he wants nothing more than to be near his humans and get showered with pets. Bowie loves to sleep with his humans, preferring to sleep on their pillows by their heads where it is soft and warm. During the day he naps close by. Bowie is super playful during the day, batting around toys and hoping for someone to break out a wand toy for him to play with.

Children? Bowie would do great with kids of all ages.

Other cats? Bowie would prefer another cat friend with the same level of energy as him, but if his new family is around most of the day and can give him the physical and mental stimulation he needs he could be an only cat.

Dogs? Bowie would be accepting of a canine buddy if they were friendly.

Background: Bowie was found as a stray by a 4Paws volunteer. They searched far and wide for an owner to no avail. They fostered him and thought they could keep him, but their older cat wasn't interested in playing with Bowie. Although he listened when she wouldn't take him up on his offers to play, the family knew he needed more activity to be happy. They arranged for Bowie to come to Meows Corner.

Medical or special care notes: Bowie has had vaccinations for rabies and distemper, is microchipped, and has been neutered. He has tested negative for FeLV and FIV. He is eating Fancy Feast classic pate (no fish flavors) and Purina One Indoor Advantage turkey.
