

NAME: Zorra

GENDER: Female

DATE OF BIRTH: August 1, 2023

Zorra came to 4Paws all the way from Beaufort, North Carolina. She was found outside by a colony feeder and since she was friendly, she was rescued and vetted so she could be adopted. Because the more rural areas have lower human densities, they always have lots of homeless cats and dogs. So volunteers have arranged to have them transported to suburban areas where the demand for them is higher.

Zorra is a beautiful brown tabby cat that likes playing with people when they hold a teaser toy or get the laser pointer out. She gets along well with other cats and 4Paws assesses that Zorra would do best in a home with another cat to keep her exercised and mentally stimulated. We are not sure how Zorra would do with dogs but feel that if she were given slow, mindful introductions to a calm, friendly dog that doesn't bark at her or chase her she would do well. Zorra would be great with kids of all ages.

Zorra has had her vaccinations, is microchipped, and has been spayed. She has tested negative for FeLV and FIV. She is eating Fancy Feast classic pate and Purina One kibble.
