

NAME: Sugarbee

GENDER: Female

DATE OF BIRTH: May 10, 2024

FUR LENGTH: Short

COLOR: White and grey tabby

**Purrsonality:** Sugarbee is a quiet kitten that seems to never meow. She would rather relax near a window and watch the world go by than join the other kittens in their rambunctious play. She has welcomed other adult fosters to join her in the large heated cat bed for naps and licks, even though she doesn't like the licks so much. Sugarbee is on the shy side so will need a patient adopter that can offer a quiet environment.

**Children?** Sugarbee would do best with older kids (12+) that can be respectful of his need for slow and quiet approaches to earn his trust.

**Other cats?** Sugarbee gets along with other cats and will need another cat to help her feel safe and gain confidence.

**Dogs?** Sugarbee would not do well with dogs.

**Background:** Sugarbee was trapped in TNR operations in Beaufort, North Carolina with several other kittens and cats over a period of a couple months. She was vetted as a potential feral (given an ear tip) but was friendly so was taken into foster and transferred to northern Virginia to find a forever home.

**Medical or special care notes:** Sugarbee has had vaccinations for rabies and distemper, is microchipped, and has been Spayed. She has tested negative for FeLV and FIV. She is eating Fancy Feast classic pate (no fish flavors) and Purina One Indoor Advantage turkey.
