

**NAME:** Buddy

**GENDER:** Male

**DATE OF BIRTH:** November 22, 2023

**FUR LENGTH:** Long

**COLOR:** Orange tabby

**Purrsonality:** Buddy is a flirty boy that will follow you around to remind you it has been 0 seconds since you last gave him pets. He doesn't want his human fans to touch his stomach for too long but is polite about how he tells them he is uncomfortable with it. He likes kisses and being held. A fan of the finer things, he loves treats and meals. He sits at the window so he can be the first to see who is coming in to the café to adore him.

**Children:** Buddy would love being friends with children of all ages.

**Other cats:** Buddy likes other cats as long as they understand he is the Star of the Show. He also does monologues so could go as a single pet.

**Dogs:** Buddy has not been tested with dogs but should probably do well with calm, friendly dogs.

**Background:** Buddy was found in a West Virginia garage and refused to leave, claiming squatter's rights. He kept trying to get into the house. He had a collar on so the residents tried to find the owner without success.

**Medical or special care notes:** Buddy has been neutered, vaccinated against rabies and distemper, tested negative for FIV and FeLV, and is microchipped. He is eating Fancy Feast pate wet food and Purina One kibble.
