Purrsonality: Rose loves pets and laps and will be totally devoted to her new forever family. She is a confident yet gentle girl who is super soft and loves to spend time with her people. She's playful and cuddly! She is especially enthusiastic about mealtimes and loves her canned food. She has opinions and lets you know what her thoughts are about something - she is a deep thinker.

Other Cats? Rose likes other cats but can go as a single cat.

Children? Rose would do well with older children (10+).

Medical or special care notes: Rose is vaccinated for distemper and rabies, microchipped, and spayed. She tested negative for FeLV, but is positive for FIV.
