

NAME: Junior and Dangle

GENDER: Male

DATE OF BIRTH: May 22, 2025

FUR LENGTH: Short

COLOR: Brown tabby

Junior

Dangle

Purrsonality: We are active and playful bonded kittens. We like wrestling and chasing toys around. We also will nap together and like hammock beds and cat trees.

Children? We would do great with kids of any age.

Other cats? We need to be adopted together but would get along with everyone.

Dogs? We should do well with dogs after proper introductions.

Background: Junior and Dangle are two of a litter of four born when a pregnant cat was dropped off at a rescuer's house when she was running errands.

Medical or special care notes: Junior and Dangle have had vaccinations for distemper and rabies, are microchipped, and have been neutered. They tested negative for FeLV and FIV.
