Children? We would do great with respectful kids of all ages.

Other cats? We need to be adopted together but like other cats.

Dogs? We should do well with quiet, calm dogs after proper introductions.

Background: Alistair and his littermates were surrendered when their owner had to move and only could take the mother cat. Celeste is from York, Pennsylvania. She was from a breeding program that was downsizing.

Medical or special care notes: Alistair and Celeste have had vaccinations for distemper and rabies, are microchipped, and have been altered. They tested negative for FeLV and FIV.
