

NAME: Si

GENDER: Male

DATE OF BIRTH: March 1st, 2020

FUR LENGTH: Short

COLOR: Siamese mix

Purrsonality: Even though I am only 4 years old, I'm an "old soul!" I'm a very gentle, quiet kitty. I am tolerant of people, but the Siamese in me would also be happy with one person to love!

Children? I would do well with respectful children or in an adult-only house.

Other cats? I can be a solo cat or could go to a home with other friendly cats.

Dogs? I should be good with other friendly or agnostic animals.

Background: Si was trapped in West Virginia and was initially assessed to be feral because he was acting out of fear. He was vetted and given to a feral rescuer who integrated him with other outside cats. As he matured, he began following people around for pets and attention. The rescuer turned him over to 4Paws. He is now doing well after having time to decompress from a scary experience of being outside on his own.

Medical or special care notes: Si has had his vaccinations, is microchipped, and has been neutered. He has tested negative for FeLV and FIV.
