

NAME: Nellie

GENDER: Female

DATE OF BIRTH: June 17th, 2023

FUR LENGTH: Medium

COLOR: White

Purrsonality: Nellie is more of an introverted girl. She prefers to hang out in cat trees and watch the activities of the lounge instead of being in the middle of the action. However, she is very sweet and loves good attention and pets if they are brought to her!

Children: Nellie would do well with respectful, patient children.

Other cats: Nellie would enjoy being adopted with Princess or can be with other calm, submissive cats.

Dogs: Nellie hasn't had a ton of positive experiences with dogs, so she would probably do best in a home without dogs.

Background: Nellie was part of a hoarding case out of York, PA. She (along with Princess & Casper) was not well cared for and used as a breeder because of her pretty white fur. The cats and kittens in the hoarding situation were even used to tease pit bulls to get them worked up to fight. Thankfully, rescues were able to step in and get the cats the help that they need!

Medical or special care notes: Nellie has been spayed, vaccinated against rabies and distemper, tested negative for FIV and FeLV, and is microchipped. She is eating Fancy Feast classic pate and Purina One kibble.
