

NAME: Daisy and Bianca

GENDER: Females

DATE OF BIRTH: Sept. 30, 2022

FUR LENGTH: Short

COLOR: White

Purrsonality: Daisy and Bianca are calm, casual girls who enjoy a balance of human attention and peaceful existence with each other. They aren't fans of the café environment on busier days but still welcome pets and attention from visitors.

Children? Daisy and Bianca should do well in homes with children over 10.

Other cats? Daisy and Bianca are bonded and will need to be adopted together. They will probably tolerate living with other friendly cats but tend to be neutral towards other cats once integrated.

Dogs? Daisy and Bianca have never been around dogs and would need a very calm, quiet dog that is neutral towards them after proper integration.

Background? Daisy and Bianca were found as young kittens in a lady's front yard in Herndon right before the weather turned very cold in 2021. She watched videos online to learn how to care for them. She did a great job bottle feeding them, and when they were older, she called 4Paws to find them a good home. Daisy and Bianca were adopted in 2022 from Meows Corner but returned in late 2025 because of their adopter's health issues. They both could afford to lose a little weight, which will help their joints stay healthy as they age.

Medical or special care notes: Daisy and Bianca tested negative for FeLV and FIV. They have had their rabies and distemper vaccines, have been spayed, and are dewormed and microchipped. They like both wet and dry food and will drink water from both a fountain and a bowl. They are eating Fancy Feast classic pate and Purina One Indoor Advantage turkey kibble.
