

NAME: Lil

GENDER: Female

DATE OF BIRTH: October 9, 2025

FUR LENGTH: Short

COLOR: Gray tabby

Purrsonality: Lil is a careful and independent girl that likes hiding under blankets with her nose poked out. She may be convinced to come out with a chicken Churu. Lil can be grumpy sometimes, but she is still adjusting to all the new things in the cafe environment. Lil will take a lot of positive human interactions to help her develop her confidence and trust of people. She would do best in a medium-energy home with patient people experienced in working with less outgoing cats.

Children? Lil would do well with respectful kids 12+.

Other cats? Lil would need another cat in her new home. She probably would do best with a male aged 2-5 years.

Dogs? Lil does NOT like dogs.

Background: Lil and her brother, Phil, were rescued in West Virginia after they were found outside as younger kittens. They are not bonded and can be adopted separately.

Medical or special care notes: Lil tested negative for FeLV and FIV and has been microchipped. She has had rabies and distemper vaccines. She has been spayed. She likes both wet and dry food and will drink water from a fountain or a bowl. She is eating Fancy Feast classic pate and Purina One Indoor Advantage turkey kibble at Meows Corner.
