Dogs? Mikey and Emma have not been around dogs but could do OK with an older, mature dog that doesn't bark a lot or chase them.

Background: Mikey and Emma were found by a young man as ferals, and he cared for them and tamed them. He needed to go on a trip so a friend of a friend agreed to foster them for him until he got back, at which point he would pick them up. He backed out of the arrangement, so she contacted 4Paws for help. She was kind enough to get them fully vetted and to raise them into wonderful, loving and friendly kittens. She contacted 4Paws and decided to have them go to Meows Corner where they would get more exposure than in foster.

Medical or special care notes: Mikey and Emma have had vaccinations for rabies and distemper, are microchipped, and have been altered. They have tested negative for FeLV and FIV. They are eating Fancy Feast classic pate (no fish flavors) and Purina One Indoor Advantage turkey.
