

NAME: Eva Luna

GENDER: Female

DATE OF BIRTH: Jan. 25, 2024

FUR LENGTH: Short

COLOR: Grey tabby

Purrsonality: I am a young girl that likes playing with other cats and loves people. My energy level is higher on the spectrum so I will need an active family that can give me stimulation and attention.

Children? I would do well with kids of any age.

Other cats? I like other cats and since I am young I would do best with a kitty playmate that likes to play.

Dogs? I should do OK with dogs after proper introductions.

Background: Eva Luna was living with several other cats outside and being fed by people in the neighborhood. These cats were not vetted and so were at risk of contributing to the number of unwanted cats in northern Virginia. An independent rescuer convinced the feeders to surrender the cats to rescues to get altered and vaccinated and to find good indoor homes where they would be well cared for and loved.

Medical or special care notes: Eva Luna has had vaccinations for distemper and rabies, is microchipped, and has been spayed. She has tested negative for FeLV and FIV.
