

NAME: Socks

GENDER: Male

DATE OF BIRTH: January 18, 2024

FUR LENGTH: Short

COLOR: Brown Tabby & White

Purrsonality: Socks can be a little more reserved; however, he is learning to open up and rolls over for belly rubs and pets. He is very affectionate and wants people to pay attention. With a little patience, he will get up and give you some love and snuggles!

Children? Socks would do great with mature, respectful, and patient children.

Other cats? Socks would do well with other kitties.

Dogs? Socks would do well with calm dogs after proper introductions.

Background: Socks was dropped off in a neighborhood in Martinsburg, WV. He was taken in by a cat lover who got them vaccinated and altered. She turned him over to a 4Paws partner to find his forever home!

Medical or special care notes: Socks has been neutered, has had his vaccinations for rabies and distemper, and is microchipped. He has tested negative for FeLV and FIV. He is eating Fancy Feast classic pate and Purina One kibble.
