

NAME: Reese

GENDER: Female

BIRTH DATE: October 29, 2020

FUR LENGTH: Medium

COLOR: Calico

Purrsonality: Reese is a gentle soul with a fluffy calico coat looking for a quiet home. She is a shy girl who likes the slow lane, preferring to take long naps in her favorite hidey-hole cat bed. Once she warms up, Reese will come and lay next to you for companionship. She will thrive best in a calm, patient household without small children or loud noises.

Other Cats? Reese gets along with other cats but can go as a single.

Children? Reese would do well older children.

Dogs? Reese has not been tested with dogs but should do well with calm, friendly dogs that don't bark a lot.

Background: Reese came to 4Paws with another cat. They were indoor-only cats in the main house on a farm. The farmer married a woman who didn't like cats, so he put them outside in the barn. Confused, they would come to the house to be let back inside but were denied. They eventually took shelter back in the barn. He would initially visit them to brush Reese and spend time with them but gradually that dwindled to him going out once a day to feed them. A friend convinced the farmer that the cats deserved better circumstances, so he surrendered them to a rescue.

Medical or special care notes: Reese had most of her teeth extracted due to decay prior to coming to the café. The veterinarian recommended Reese not be anesthetized again unless it is absolutely necessary because she had difficulty recovering from the anesthesia. She will need to be brushed or groomed. She is vaccinated for distemper and rabies, spayed, and microchipped. She tested negative for FeLV and FIV. She has been eating Fancy Feast Pate and Purina One Indoor Advantage turkey kibble.
