

NAME: Poppy

GENDER: Female

DATE OF BIRTH: January 3rd, 2024

FUR LENGTH: Short

COLOR: Black tuxedo

Purrsonality: Poppy is an observant girl who often likes to sit on a bench or cat trees and watch the activity going on around her! She prefers a quieter environment, but she will often come out for pets and attention if people take the time to let her warm up to them. She does enjoy hearing people talk about her fancy black and white markings!

Children: Poppy would do well in a home with patient children.

Other cats: Poppy should have another cat friend in her home.

Dogs: Poppy hasn't been tested with dogs, but she should do well with friendly dogs after proper introductions.

Background: Poppy was surrendered with Paul Walker (adopted), Pookie, Cheddar (adopted), and MJ (adopted) when their humans were evicted. They are from Cumberland, Maryland. A 4Paws partner rescue in West Virginia took them in and saw how friendly they were, so she contacted Meows Corner to help them find forever homes.

Medical or special care notes: Poppy has been spayed, vaccinated against rabies and distemper, tested negative for FIV and FeLV, and is microchipped. She is eating Fancy Feast classic pate and Purina One kibble.
