

**NAME:** Vincent

**GENDER:** Male

**DATE OF BIRTH:** September 10<sup>th</sup>, 2020

**FUR LENGTH:** Short

**COLOR:** Gray and white

**Purrsonality:** Vincent loves people and will follow you around like a dog! He is curious, loves to wander around, and is nosy and will get into things. He also LOVES other cats, and wants to be friends with everyone!

**Children:** Due to Vincent's leg, we do recommend that he doesn't go to a home with small children. He would be okay with older, mature children.

**Other cats:** Vincent loves other cats, so he will have to be adopted with another cat or go to a home that already has cats.

**Dogs:** Due to his injury, Vincent needs to be adopted in a home without dogs or with very calm dogs.

**Background:** Vincent was taken in as a stray feral, but became sweet and friendly. He was kept as an outdoor cat until he was accidentally backed over with a truck, which caused him to break his right leg. He was brought inside so the leg could heal and the owner decided to no longer let him go outside.

**Medical or special care notes:** Vincent has been neutered, vaccinated against rabies and distemper, tested negative for FIV and FeLV, and is microchipped. He had a previous break to his right tibia, which healed unevenly. He has to walk and be active (not rough) to help develop his muscles around the leg. His left ear was mangled when he was younger.
