

NAME: Margaux

GENDER: Female

DATE OF BIRTH: November 1, 2023

FUR LENGTH: Short

COLOR: Silver tabby

Purrsonality: Margaux is a friendly girl that is initially cautious in new locations but will adjust to new schedules and environments relatively easily. She will vocalize at humans when engaged and petted.

Children? Margaux will do well with children of all ages.

Other cats? Margaux would get stressed and swat at other cats in her crowded foster room if they got too close for comfort, but should do OK with 1-2 other kitties. She can also go as a single cat even though she is under a year old.

Dogs? Margaux has not been tested with dogs but should do OK with calm, friendly dogs.

Background: Margaux was found in a bad section of DC with a couple of other kittens in early 2024. She was only 4 months old but was pregnant, sick, and thin. She was given great care by a local veterinarian and fostered by a 4Paws volunteer. She was nominated to go to the café because she is a unique quad-polydactyl “Hemingway cat”, like the cats in Key West, Florida at Ernest Hemingway’s home.

Medical or special care notes: Margaux has had vaccinations for rabies and distemper, and is microchipped and spayed. She tested negative for FeLV and FIV. She is eating Fancy Feast classic pate and Purina One kibble. Her extra toes’ nails are not retractable so will need regular clipping so as not to catch on fabrics.
