

**NAME:** Matteo

**GENDER:** Male

**DATE OF BIRTH:** April 13, 2023

**FUR LENGTH:** Long

**COLOR:** Grey and white

**Purrsonality:** Matteo is a calm, human-oriented boy that is neutral to other cats. He will avoid confrontations with them and prefers to hang around with people. He likes looking out windows while pondering the mysteries of the universe and solving differential equations in his head. Not one to brag, Matteo doesn't advertise he is a mathematical genius...he just goes about his cat day being a cat and doing cat things, like revisiting the breakfast bowls to make sure no food goes to waste and trying his best to get humans to give him attention. He even appreciates jokes about his name, having come to 4Paws with his fur matted so severely the groomer had to give him a lion cut. Matteo will need upkeep with his coat, so regular brushing and groomer visits are recommended.

**Children:** Matteo would not do well with kids because he likes to give an occasional "love nip" if you don't give him enough attention.

**Other cats:** Matteo can go as a single cat or with another friend.

**Dogs:** Matteo was curious about his foster's large dog and would do well with friendly dogs after proper integration.

**Background:** Matteo was transferred to 4Paws by a West Virginia rescue after his human became too sick to care for him.

**Medical or special care notes:** Matteo has been neutered, vaccinated against rabies and distemper, tested negative for FIV and FeLV, and is microchipped. He is eating Fancy Feast pate wet food and Purina One kibble.
