**Purrsonality:** Coltan is a quiet, calm boy that likes other cats and hanging out with his brothers. He is a little anxious around new people but likes playing with laser pointers and fishing pole toys.

**Children?** Coltan would do well with older, quiet kids.

**Other cats?** Coltan has never been without cat friends so will need another cat to socialize with.

**Dogs?** Coltan should do well with friendly, calm dogs but he has never been tested with a dog.

**Background:** Coltan is one of seven kittens that Meows Corner alum Ruby had after she was rescued off the streets in Alexandria. Ruby and one of her kittens, Emery, have already been adopted from Meows Corner. Coltan's four other brothers are at the café and he would pair well with any of them.

**Medical or special care notes:** Coltan has had vaccinations for rabies and distemper, is microchipped, and has been neutered. He has tested negative for FeLV and FIV. He is eating Fancy Feast classic pate and Purina One kibble.
