

NAME: Charlotte

GENDER: Female

DATE OF BIRTH: September 22nd, 2024

FUR LENGTH: Short

COLOR: Black tuxedo

Purrsonality: Charlotte is the shyest of the four kittens brought to Meows Corner from a TNR rescuer in DC. She is playful and likes running around with her siblings and other kittens. Charlotte will need a patient adopter that understands her needs for gentle handling and socialization with people.

Children: Charlotte would do best with gentle children 14+.

Other cats: Charlotte will need a buddy to play with in her new home that can make her feel comfortable and confident.

Dogs: Charlotte would probably not do well with dogs.

Background: Charlotte, Darby, Sybil and Winston were found in a bad area of DC and taken into foster by a TNR volunteer. They were transferred to a foster for the café after they were altered. They are not bonded to each other but can be adopted together since they are littermates, and would make good companion cats for sole cats that need a friend.

Medical or special care notes: Charlotte has been spayed, vaccinated against rabies and distemper, tested negative for FIV and FeLV, and is microchipped. She is eating Fancy Feast pate wet food (no fish flavors) and Purina One kibble.
