

NAME: Daisy

GENDER: Female

DATE OF BIRTH: April 15, 2024

FUR LENGTH: Short

COLOR: Black and white

Purrsonality: Daisy is a fun-loving playful kitten that quickly purrs when petted and picked up. She likes lounging around but always seems to be paying attention to what is going on around her in case she sees something interesting to chase.

Children? Daisy should do well with respectful children of all ages.

Other cats? Daisy would do well with other cats and will need another playful (<12 months old) cat in her home. Although they are not bonded, Daisy and Duke were fostered together in North Carolina and get along well.

Dogs? Daisy has never been tested with dogs but given her young age should be adaptable if the resident dogs are calm and friendly.

Background: Daisy and her siblings were fostered by Beaufort Community Cats in North Carolina. She was the last kitten left after her littermates were adopted. Because of her age she needed to have another kitten to play with, so she was then fostered with Duke, who was also a sole kitten that needed a buddy. She was transported to northern Virginia to go to Meows Corner.

Medical or special care notes: Daisy has had vaccinations for rabies and distemper, is microchipped, and has been spayed. She has tested negative for FeLV and FIV. She is eating Fancy Feast classic pate and Purina One kibble.
